## Work of art

Work done by Agape Tile of Naples on this swimming pool in Royal Harbor will be featured on Home and Garden Television's "Modern Masters" program in February. The pool features an 8.5-foot-by-20-foot handpainted tile mural entitled "An Offering to Flora." The large-scale tile work was inspired by a historical bas relief which was originally modeled at the Wedgwood factory in 1778 by one of its modelers, William Hackwood. Agape Tile designs and manufactures commercial and residential murals in tile, glass, stone, clay, agglomerates, handpainted marble and canvas, photo-imaged tile and marble and gemstones. The firm has been in business since 1984. *Courtesy/Agape Tile*
